

## West Sound Watersheds Council

Technical Advisory Group Meeting

May 8, 2018 | 9:30am – 12:30pm

Port Blakely Conference Room

Kitsap County Administration Building, Port Orchard

WEST SOUND  
WATERSHEDS COUNCIL

### Agenda

- **Recap March 13 TAG meeting**
  - See April 2018 updates
  
- **Roundtable announcements**
  - *Incentivizing Healthy Shorelines Workshop: Sustaining shoreline incentive programs and implementing on the-ground projects in Puget Sound.*
  - 2018 Salish Sea Conference talks and posters
  - Near term actions – West Central Local Integrating Organization
  - Puget Sound lead entities/watershed leads meeting
  - Common Indicators for estuaries, armor and beach strategies
  
- **What's happening in the Lead Entity?** Past, proposed, and active salmon habitat recovery and projects in the Lead Entity. *Come prepared to talk about projects.*
  - Recently closed or active project status?
  - Is your organization applying in 2018 for:
    - Estuary and Salmon Restoration Program (ESRP)?
    - Brian Abbot Fish Barrier Removal Board (FBRB)?
    - Family Forest Fish Passage Program (FFFPP)?
    - Washington Wildlife and Recreation Program (WWRP)?
  
- **East Kitsap Steelhead Recovery Plan**
  - Consultants selected: ESA (Environmental Science Associates (ESA) and Long Live the Kings (LLTK)
  - Work to begin in mid-May. Please let Tom Ostrom know if you want to contribute data or expertise on the EK DIP.
  
- **Floodplains and Fish Passage** strategies update and identification of projects
  - Strategy Intro;
  - Fish Passage Strategy draft;
  - Floodplain Strategy draft (will be sent out for review)

#### Strategies update schedule 2018:

- July – riparian areas, channel complexity
- September – sediment, hydrology, invasive species
- What about nearshore? When should we discuss nearshore?
